FEATURES & BENEFITS

CONSTRUCTION

Stainless steel constructed tank makes for a solid portable unit with added resistance against corrosion and breakage.

FLOW CONTROLS

Green ABS plastic Soft-Flo anti-surge heads and a body-spray head equipped with this 37 gallon (140 L) portable unit distribute water at .25 gpm (.9 L) for the eyewash and 4gpm (15.1 L) for the drench hose when pressure is between 30 and 90 psi (2.1 and 6.2 bar) to provide a thorough irrigation process.

VALVES

Eyewash valve comes equipped with stainless steel ball and stem for added protection against corrosion and breakage. Unit also comes with a chrome-plated brass squeeze valve supplied with a 6.25 gpm (23.7 L) flow control.

ADDED PROTECTION

Green polyethylene plastic dust covers that release with water pressure keep the unit protected from debris up until the last second before use further optimizing operation. The 6' hose extends the portable units reach and is pressure rated at 250 psi (17.2 bar) making for a better piece of emergency equipment.

SAFETY

Air pressure gauge, pressure relief valve, and tire-type air fill valve decrease the possibility of mishaps and make for a safer piece of emergency equipment.
