Arc Flash Harnesses!

THE ULTIMATE IN FALL PROTECTION

PRODUCT SHEET

ExoFit NEX™ ARC FLASH HARNESS

ExoFit NEX™ Arc Flash

models incorporate Nomex®/Kevlar® construction featuring flame resistant and non-conductive properties, making them perfect for use in any industry where high voltage electricity or hot-work such as welding is a concern.

You will have complete peace of mind knowing that all DBI-SALA™ arc flash equipment is tested to perform in accordance with the recently updated ASTM F887-11 arc flash standard specification for personal climbing equipment, as well as ANSI Z359. (CSA models available.)

Testing for fall protection is performed in two steps: The first step exposes the equipment to an arc flash at 40 cal/cm², and the second is a drop test compliant with ANSI Z359.1 after the exposure.

COMFORT.

True to our ExoFit™ mission, we manufacture these harnesses using materials that won't add unnecessary weight.

FUNCTION.

When speed and efficiency are project requirements, ExoFit NEX™ will provide the freedom and confidence to function at your maximum potential.

DURABILITY.

ExoFit NEX™ harnesses are designed using materials that last in the toughest environments.

EXOFIT NEX™

The Ultimate Full Body Comfort Harnesses

ExoFit NEX™ harnesses are the newest, most advanced harnesses in the industry. They're the culmination of our experience with ExoFit™ and ExoFit™ XP, ongoing research and the incorporation of new materials and innovative features. When you purchase an ExoFit NEX™ harness, you can be certain that you're purchasing the finest harness available today, from DBI-SALA™ or anyone else.

FLAME RESISTANT WEBBING

Nomex® exterior with Kevlar® core and thread provides 7,000 lb. strength and ultimate flame resistance.

REVOLVER™ VERTICAL TORSO ADJUSTERS

Simple and fast adjustments that eliminate loose ends and lock into place, preventing slippage.

PVC COATED TECH-LITE™ ALUMINUM D-RINGS

Non-conductive, extremely lightweight aluminum alloy hardware offers the highest level of comfort and security.

ARC FLASH RATED TRAUMA STRAPS

Provide an adjustable, continuous loop for post fall, minimizing suspension trauma.

INTEGRATED INSULATORS

Leather insulators behind exposed hardware prevent contact with body during "hot" situations.

**420 LB.
CAPACITY**
ON ALL MODELS

ULTRA-SOFT EDGING

Moves with you. Doesn't rub or chafe.

SUPERIOR X-DESIGN

Wrap-around design provides the ultimate in comfort, security and no-tangle donning.

ARC FLASH RATED

Tested to perform in accordance with ASTM F887-11 standard for personal climbing equipment.

ARC FLASH HYBRID PADDING

Lightweight shoulder, hip and leg padding always keeps the wearer comfortable.

MOLDED LANYARD KEEPERS

Easy holstered lanyard hooks break away to avoid trip hazard.

REFLECTIVE MATERIAL

Integrated on legs, chest, shoulders and back for greater visibility and safety.

BUILT-IN CARRYING POCKET

Conveniently holds a cell phone, camera or other items.

DUO-LOK™ QUICK CONNECT BUCKLES

Lightweight aluminum, one-handed use with memory fit web lock ensures fast, non-slipping connections.

STAND-UP DORSAL D-RING

Non-conductive, extremely lightweight PVC-coated aluminum D-ring is spring loaded for fast and easy connections. Also available in web loop configurations.

Equipped with

ExoFit NEX™ ARC FLASH HARNESS
