2026 CATALOG

AMERICA'S SAFETY CHOICE. LEADERS IN PURPOSE-BUILT PPE

When you choose National Safety Apparel (NSA), you're not just buying safety products. You're joining a generational legacy of safety and American craftsmanship.

Ever since our formation during the resilient years following the Great Depression, we've accepted the responsibility of being the guardian of American workers. From the very beginning, our mission has been simple yet vital: to ensure that every worker returns home safely at the end of the day. It's a commitment we've upheld for generations and one that continues to drive us forward.

That legacy is backed by real capability:

- 9 USA Manufacturing Plants
- 1 USA Fulfillment Center
- 1 Free-Trade Zone DR Plant
- 1,000+ Skilled American Workers
- In-House Research & Development

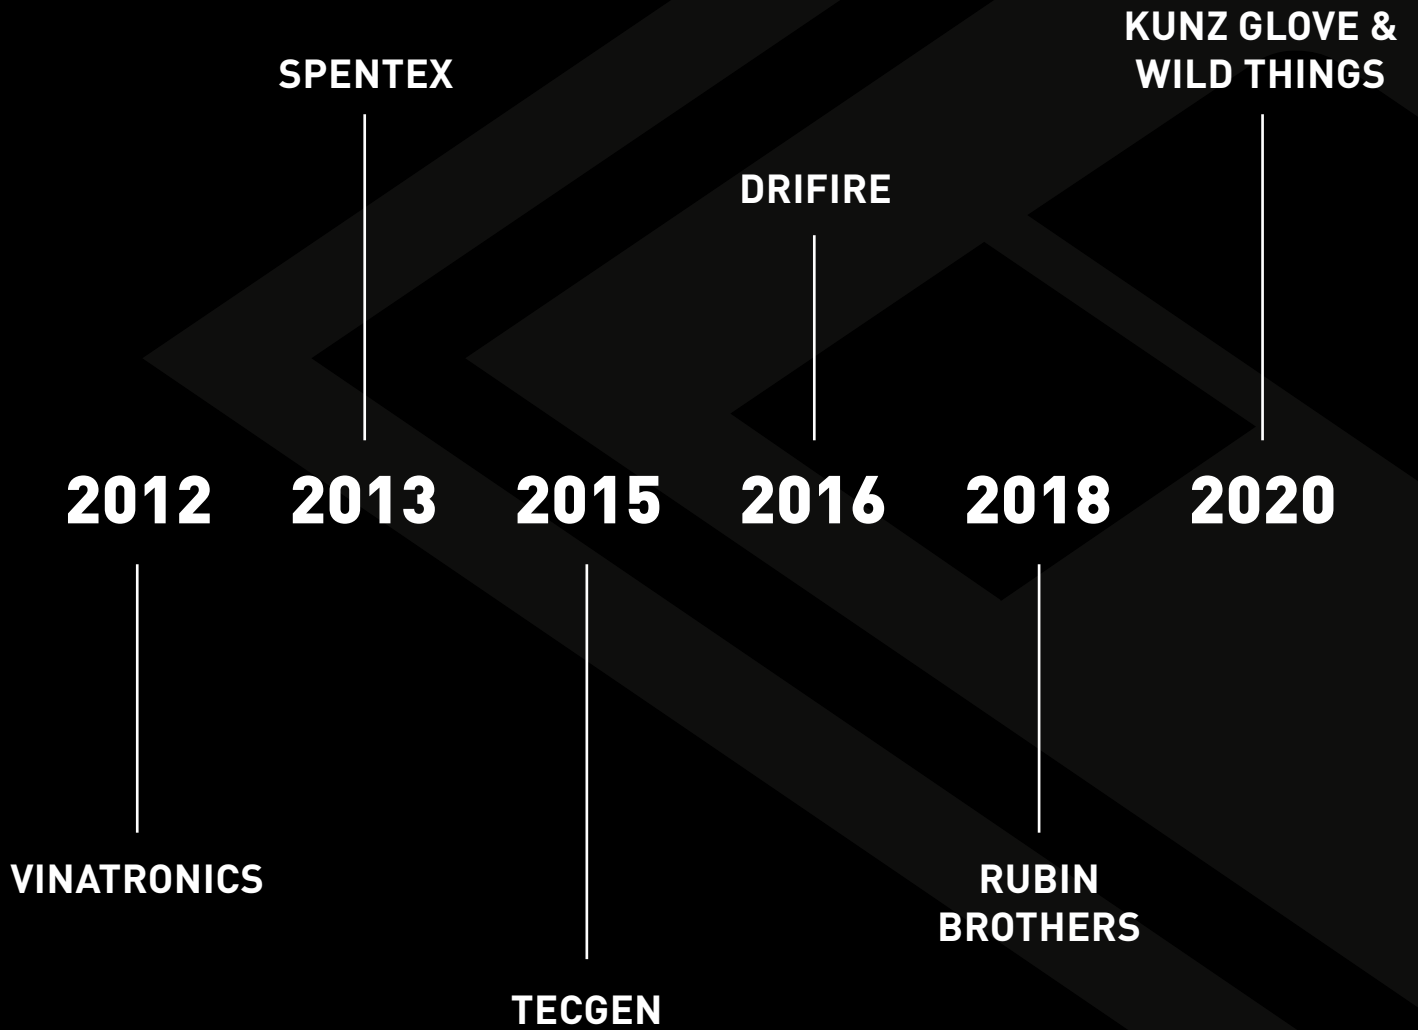

We design, build, and deliver advanced protective apparel, purpose-built for those who get the job done.

NSA IS AMERICA'S SAFETY CHOICE.

A HISTORY OF LOOKING FORWARD

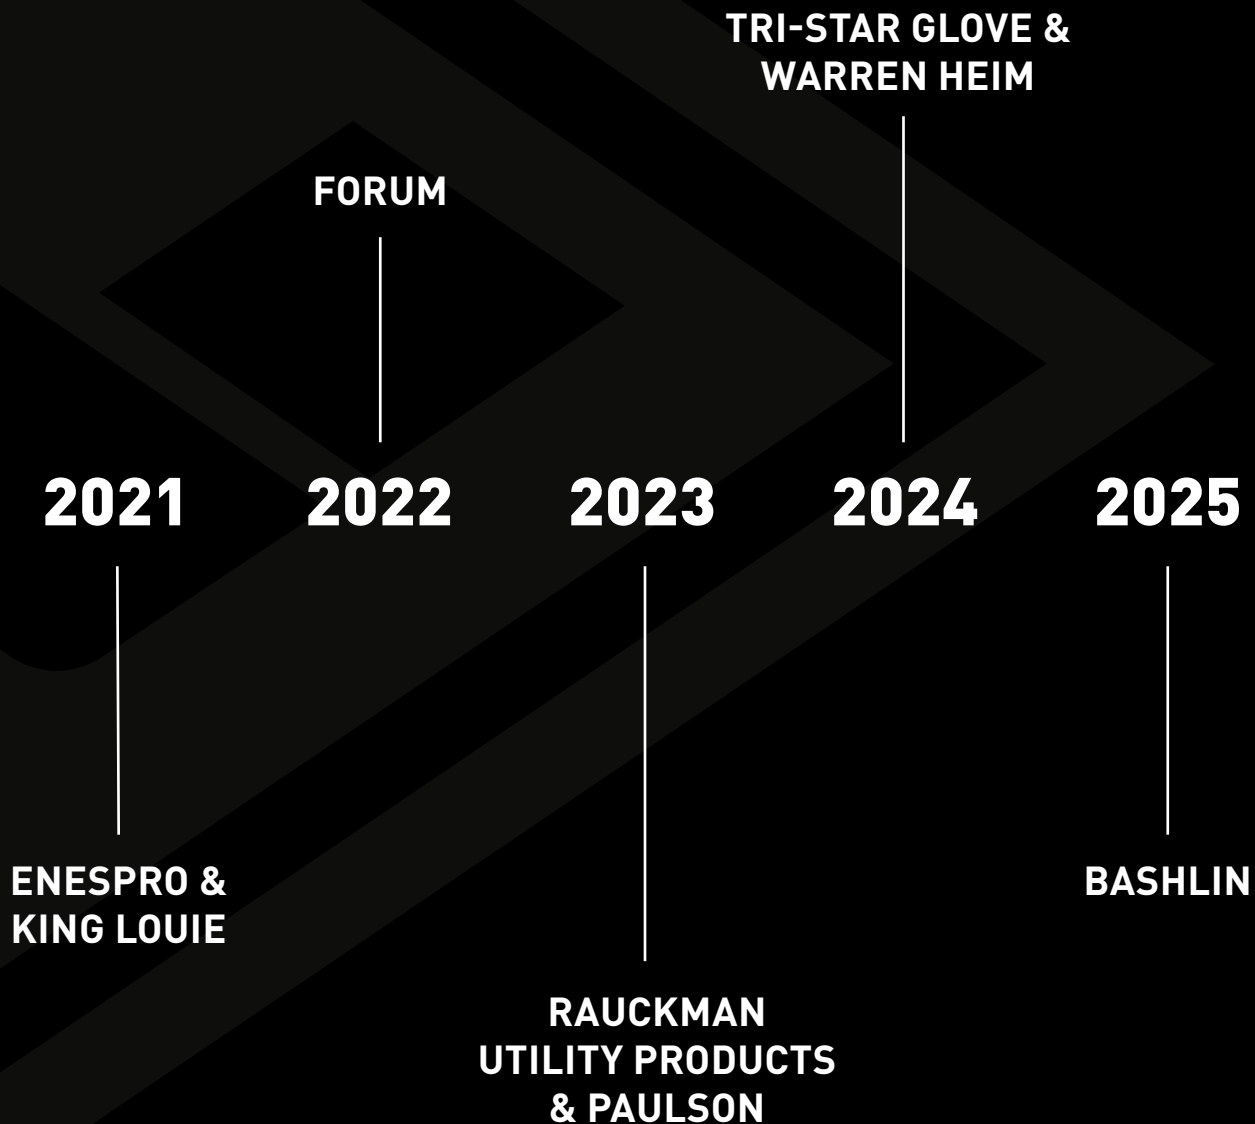

NSA'S LEGACY OF INNOVATION

has been driven by a deep understanding of the workforce's evolving safety needs and a vow to continuously expand and improve our safety gear offering to best serve those needs.

Since 2012, we've welcomed many well-respected safety apparel brands to the NSA family, including DRIFIRE, Wild Things, Enespro, and Bashlin. The unique collaboration of diversely skilled scientists and designers has allowed us to bring dozens of proprietary technologies to market, including patented fabrics and garment designs shaped by real-world needs.

Today, our investments in manufacturing advancements make it possible to offer you rapid prototyping and production. With more than 600 U.S.-based sewists and sewing machines ready to go, we're prepared to deliver custom solutions right to your door.

DIFFERENT BY DESIGN

THE NSA DIFFERENCE BEGINS

with our people, who prefer to think of their careers as a calling. Ensuring every worker returns home safely every day is all that matters at the end of our day.

To fulfill that mission, we remain deeply committed to compliance and taking an active role in evolving safety standards with the workforce's best interests in mind.

For customers, NSA stands apart as a single, broadly capable partner for endless purpose-built solutions focused on environments where protection is mission-critical.

Whether you're looking for FR clothing, high-visibility work wear, electrical PPE, high heat and aluminized protection, or specialized gear for cut, cryo, chemical,

and food processing applications, rely on NSA for unparalleled speed to market around innovations in fit, mobility, comfort, and injury prevention.

BORN ON THE BATTLEFIELD. BUILT FOR AMERICA'S WORKFORCE.

DRIFIRE® high-performance FR/AR work wear is built for those who demand both comfort and protection in tough environments. With innovative designs and advanced fabric technology, our gear works as hard as you do.

The same technology that keeps American troops safe abroad is protecting workers at home, helping you tackle potentially hazardous jobs with confidence. At DRIFIRE, we're mission-driven and performance-obsessed, delivering work wear that supports you every step of the way.

ARC RATING: 4.9 cal/cm² | CAT LEVEL: CAT 1

MATERIALS: 6.5 OZ. DRIFIRE® PRIME™

Inherently FR, moisture-wicking balaclava with flat-lock seams and odor control for all-day comfort. Lightweight, breathable fabric provides UPF 50+ protection, blocking 99.5% of UV rays. Versatile design allows multiple ways to wear.

FR CONTROL™ COOLING BALACLAVA

PRODUCT#: H85FK

SIZE: ONE SIZE FITS MOST

COLORS: ●

ARC RATING: 4 cal/cm² | CAT LEVEL: CAT 1

MATERIALS: 5.5 OZ. FR CONTROL 2.0™

Engineered for comfort and readiness in all conditions. Smart temperature regulation, superior moisture-wicking, and odor control keep you focused. Lightweight, breathable FR fabric moves with you while providing lasting protection that won't wash out.

PRIME™ COLD WEATHER BALACLAVA

PRODUCT#: DF2-762CB-__

SIZE: ONE SIZE FITS MOST

COLORS: ● ●

ARC RATING: 14 cal/cm² | CAT LEVEL: CAT 2

MATERIALS: 6.5 OZ. DRIFIRE® PRIME™, DOUBLE LAYER

Inherently flame-resistant balaclava with flat-lock seams for superior comfort and versatility. Double-layer construction features odor control and moisture management technology to keep workers dry and focused. Unsize design and UPF 50+ fabric that blocks 99.5% of UV radiation provide reliable, long-lasting protection in extreme conditions.

POWER GRID™ FLEECE FR BEANIE

PRODUCT#: H01FWCAP

SIZE: ONE SIZE FITS MOST

COLORS: ● ● ●

ARC RATING: 9.4 cal/cm² | **CAT LEVEL:** CAT 2

MATERIALS: 9.6 OZ. FR POLARTEC® POWER GRID™ FLEECE

Four-way stretch fabric with grid technology provides superior breathability, moisture-wicking performance, and warmth without bulk. Flat lock seams enhance all-day comfort. Dual hazard protection against arc flash and flash fire hazards keeps workers safe in the toughest conditions.

FR WINTER BEANIE

PRODUCT#: HMOD2BK

SIZE: REGULAR AND LARGE

COLORS: ●

ARC RATING: 28 cal/cm² | **CAT LEVEL:** CAT 3

MATERIALS: 10 OZ. MODACRYLIC BLEND

Double-layer knit FR fabric delivers warmth without bulk in harsh conditions. Stretchable fit enhances comfort while inherent FR protection won't wash or wear out.

FR WINTER BEANIE NOMEX

PRODUCT#: HNC2BK__

SIZE: REGULAR AND LARGE

COLORS: ●

ARC RATING: 35 cal/cm² | **CAT LEVEL:** CAT 3

MATERIALS: 10 OZ. DUPONT™ NOMEX®

Double-layer knit construction delivers superior warmth and insulation in harsh winter conditions. Stretchable, lightweight material provides a snug, comfortable fit for all-day wear. Inherently flame-resistant protection that won't wash or wear out.

FR WINTER EAR BAND

PRODUCT#: HNCEB

SIZE: ONE SIZE FITS MOST

COLORS: ●

ARC RATING: 35 cal/cm² | **CAT LEVEL:** CAT 3

MATERIALS: 10 OZ. DUPONT™ NOMEX®

Double-layer knit ear band delivers inherent FR protection that won't wash or wear out. Stretchable fit maximizes comfort while keeping out wind and cold. Worn over hard hats to ensure worker readiness even in harsh winter conditions.

FR BASEBALL CAP

PRODUCT#: DGRUPCAP

SIZE: ONE SIZE FITS MOST

COLORS: ●

ARC RATING: 12cal/cm² | **CAT LEVEL:** CAT 2

MATERIALS: 9 OZ. FR COTTON BLEND

Adjustable hook & loop closure ensures a secure fit in this sporty FR ball cap. Customizable logo options available.

FR FLEECE HARD HAT LINER

PRODUCT#: H74FL10

SIZE: ONE SIZE FITS MOST

COLORS: ●

ARC RATING: 24 cal/cm² | **CAT LEVEL:** CAT 2

MATERIALS: 8.5 OZ. DUPONT™ NOMEX® IIIA FLEECE

DRIFIRE FR Fleece Hard Hat Liner Nomex® fleece delivers superior warmth without bulk in cold conditions. FR hook & loop closure and tabs securely attach liner to hard hat for all-day comfort and protection. Lightweight yet rugged construction keeps workers focused on the mission at hand.

ACCESSORIES

SUN SHIELD

PRODUCT#: DFSUNSHD

SIZE: ONE SIZE FITS MOST

COLORS: ○

MATERIALS: POLYCARBONATE

Transparent gray visor expands hard hat brim for upward visibility and additional UV protection. Compatible with MSA V-Gard® full-brim hats. Sun Shield visor suitable for arc flash exposures below 8.5 cal/cm².

***Hard hat not included**

FR COOLING NECK SHADE

PRODUCT#: FRHVSHADE

SIZE: ONE SIZE FITS MOST

COLORS: ●

ARC RATING: 13 cal/cm² | **CAT LEVEL:** CAT 2

MATERIALS: 5.5 OZ. FR CONTROL 2.0™

Proactively regulates skin temperature while providing evaporative cooling and UPF 50+ protection. Inherently flame-resistant fabric wicks sweat and dries quickly. Shields neck and ears from sun's rays.

SUNSHADE KIT

PRODUCT#: KITDFSUNSHD

SIZE: ONE SIZE FITS MOST

COLORS: ●

MATERIALS: 5.5 OZ. FR CONTROL 2.0™/POLYCARBONATE

Protect your head and neck from the sun's harsh rays with this FR cooling sunshade kit. Compatible with MSA V-Gard® full-brim hard hats, the UPF 50+ fabric blocks 99.95% of UV radiation while regulating skin temperature. The transparent gray visor allows for upward vision. Wicks sweat for quick-dry comfort.

***Hard hat not included**

FR HAND WARMER

PRODUCT#: HANDWARMER

SIZE: ONE SIZE FITS MOST

COLORS: ●

MATERIALS: 8.25 OZ. COTTON/NYLON BLEND LINED WITH 8.5 OZ. NOMEX® IIIA FLEECE

Rechargeable hand warmer with three heat settings for optimal comfort on the job. Innovative warming tech and adjustable, hands-free design help you focus on the job at hand. Battery and wall charger included for easy recharging.

A NEW GENERATION OF ARC FLASH + ELECTRICAL SAFETY PPE.

Isn't it time we all move beyond electrical PPE that was designed decades ago?

Enespro was created to challenge the old guard, driven by an indisputable industry need to do better at protecting our loved ones. That means finding more comfortable fabrics. Designing better fits that are easier to put on and never restrictive. Innovating faceshields that won't diminish your vision. In short, we're making PPE that workers will actually want to wear.

Enespro is a new generation of innovative arc flash and electrical safety PPE, developed with direct input from industry experts and built to support safety, comfort, and confidence on the job.

20 CAL LIFT FRONT SHROUD

PRODUCT#: H65UW20LFS

Engineered for performance and comfort, the AirLite™ 20 Cal Lift-Front Hood with PureView™ faceshield enhances visibility and breathability on the job. The shroud's open-air design promotes cooling airflow, while the injection-molded nanoparticle construction resists UV degradation for lasting durability. A premium anti-fog/anti-scratch coating maintains clear vision, and the convenient lift-front design offers quick access to fresh air without compromising protection.

20 CAL ARC FLASH PPE JACKET

PRODUCT#: EN20JTWUNB01__

SIZE: SM-3X

Built for performance, this 20 cal arc flash jacket offers protection with enhanced mobility and comfort. Flexible fabric and knit panels improve range of motion, while FR cuffs ensure a secure fit with voltage gloves. Hi-visibility zipper accents and 3M™ Scotchlite™ trim enhance compliance and visibility in low-light conditions.

20 CAL ARC FLASH PPE BIB OVERALLS

PRODUCT#: EN20BOWUNB01__

SIZE: SM-3X

Comfort and mobility where it matters most. Gusseted crotch and pleated knees allow unrestricted movement, while adjustable Flex Fit straps and an elastic waist ensure a secure, personalized fit. Hi-visibility zipper accents and 3M™ Scotchlite™ Reflective Comfort Trim support visual compliance and visibility in low-light environments, with 14-inch leg zippers providing easy on-and-off convenience.

AIRLITE ASCEND™ 40 CAL ARC FLASH LIFT FRONT HOOD WITH DUAL FANS

PRODUCT#: EN40A2-LFH-FAN

Featuring a lift-front shield, optional dual fans, and contoured profile, this 40 cal hood delivers a steady flow of fresh air, full-spectrum color recognition, and a secure fit. Visual distortion is minimized thanks to an innovative toric shield, while premium coatings resist fogging and scratching.

AIRLITE ASCEND™ 40 CAL ARC FLASH JACKET

PRODUCT#: EN40A2-J-__

SIZE: SM-3X

Engineered with the patent-pending DRIFIRE® 4.4™ 40 Cal fabric system, the AirLite Ascend™ Jacket redefines comfort and performance in arc flash protection. Ergonomic design and knit panels enhance mobility and comfort in high-movement areas, while advanced moisture-wicking technology helps regulate body temperature on the job. FR 3M™ Scotchlite™ Reflective Comfort Trim and innovative glow accents deliver next-level visibility in low-light and dark environments, ensuring confidence and safety in every condition.

AIRLITE ASCEND™ 40 CAL ARC FLASH BIB OVERALLS

PRODUCT#: EN40A2-B-__

SIZE: SM-3X

Ergonomic, flame-resistant bib-overalls designed for optimal mobility and comfort. Gusseted crotch and pleated knees allow full range of motion, while moisture-wicking fabric regulates temperature. Adjustable shoulder straps and waist ensure a flexible fit for various body types. Reflective trim enhances low-light visibility.

ARC FLASH HEAD PROTECTION

DESIGNED WITH THE ELECTRICIAN IN MIND, ENESPRO ARC FLASH HEAD PROTECTION DELIVERS EXCEPTIONAL COMFORT AND PERFORMANCE WITHOUT COMPROMISING SAFETY. FROM BALACLAVAS MADE WITH LIGHTWEIGHT AND BREATHABLE FABRICS, TO FACESHIELDS THAT LEVERAGE NANOPARTICLE TECHNOLOGY FOR ENHANCED VISIBILITY ON THE JOB, ENESPRO RAISES THE STANDARD IN ELECTRICAL HEAD PROTECTION.

HOVER XTR™ SERIES FACESHIELDS

Enespro® Hover XTR™ Faceshields represent the next generation in Arc Flash Head Protection. They redefine safety and visibility with advanced nanoparticle technology and a uniquely engineered Toric lens. The design delivers unmatched optical precision, full-spectrum color recognition, and a wider field of vision with less glare and distortion, helping to improve situational awareness.

HOVER™ SERIES FACESHIELD

The Hover™ Faceshield delivers dependable arc flash protection with a clear, unobstructed view. Built around the Hover™ series bracket, it helps offset weight over the hard hat for a balanced, comfortable fit. The highly transparent faceshield supports proven color recognition, while its low-profile chin cup and adjustable positioning keep it securely in place.

16 CAL ARC GOGGLE HOOD SYSTEM

PRODUCT#: KITHP12GGL

SIZE: ONE SIZE FITS MOST

COLORS: ●

ARC RATING: 16 cal/cm² | **CAT LEVEL:** CAT 2

MATERIALS: WESTEX® ULTRASOFT®/OPF PARA-ARAMID/OPF BLEND

Lightweight hood with 360-degree head protection for 16 cal hazards. Flexible, breathable stretch material keeps head and neck comfortable, while baffled vents improve airflow. Anti-fog goggles and full facial coverage to below the neckline provide enhanced protection without compromising comfort.

42 CAL ARC GOGGLE HOOD SYSTEM

PRODUCT#: KITHP27

SIZE: ONE SIZE FITS MOST

COLORS: ●

ARC RATING: 42 cal/cm² | **CAT LEVEL:** CAT 4

MATERIALS: OPF PARA-ARAMID/OPF BLEND

Lightweight 42 cal protection with 360-degree head coverage. Increased flexibility and breathability keep workers comfortable. Includes balaclava plus goggle with anti-fog inner lens and vented, elastic design. Stretch material extends protection below the neckline without compromising comfort.

50 CAL ARC GOGGLE HOOD SYSTEM

PRODUCT#: KITHP45

SIZE: ONE SIZE FITS MOST

COLORS: ●

ARC RATING: 50 cal/cm² | **CAT LEVEL:** CAT 4

MATERIALS: OPF PARA-ARAMID/OPF BLEND

Lightweight 50 cal head protection system featuring baffled goggle vents for improved airflow and a stretch balaclava for full facial coverage. Breathable, flexible design delivers extended wear comfort to keep workers focused and productive.

10 CAL NOMEX™ FR BALACLAVA

PRODUCT#: H61NK

SIZE: ONE SIZE FITS MOST

COLORS: ○

ARC RATING: 10 cal/cm² | CAT LEVEL: CAT 2

MATERIALS: 6 OZ. NOMEX® INTERLOCK KNIT

Inherently flame-resistant balaclava with double layer top and bib for enhanced protection. Designed for all-day wear with a half-face opening, flat lock seams, and lightweight fabric that won't melt or ignite.

16 CAL FR BALACLAVA

PRODUCT#: H11R_

SIZE: ONE SIZE FITS MOST

COLORS: ● ●

ARC RATING: 16 cal/cm² | CAT LEVEL: CAT 2

MATERIALS: 6 OZ. WESTEX® TRUECOMFORT RIB

Single layer top and bib design provides lightweight protection and breathability. Large face opening enhances visibility and comfort, while flat lock seams reduce irritation under hard hats.

16 CAL FR BALACLAVA

PRODUCT#: H73RY

SIZE: ONE SIZE FITS MOST

COLORS: ● ●

ARC RATING: 16 cal/cm² | CAT LEVEL: CAT 2

MATERIALS: 6.5 OZ. WESTEX® ULTRASOFT® RIB

Single-layer construction offers lightweight protection and flexibility for electrical work environments. A large face opening improves visibility and ease of movement, while durable FR fabric won't melt, drip, or ignite. Flat-lock seams enhance comfort when worn under a hard hat. Designed for dependable performance and comfort on the job.

25 CAL FR BALACLAVA

PRODUCT#: H11RV

SIZE: ONE SIZE FITS MOST

COLORS: ●

ARC RATING: 25 cal/cm² | CAT LEVEL: CAT 3

MATERIALS: 10.5 OZ. WESTEX® ULTRASOFT® RIB

Designed for comfort and protection, this balaclava features a single layer top and bib, large face opening for visibility, and flat lock seams for extended wear under hard hats. The durable, heavyweight FR fabric will not melt, drip or ignite.

42 CAL CARBON ARMOUR™ FR BALACLAVA

PRODUCT#: H61RK

SIZE: ONE SIZE FITS MOST

COLORS: ●

ARC RATING: 42 cal/cm² | CAT LEVEL: CAT 4

MATERIALS: 6 OZ. OPF BLEND KNIT

Designed for ultimate comfort under a hard hat, this lightweight balaclava features a double layer top and bib, half-face opening, and flat lock seams.

42 CAL FR BALACLAVA

PRODUCT#: H62RK

53 CAL FR BALACLAVA

PRODUCT#: H49CX

SIZE: ONE SIZE FITS MOST

COLORS: ●

ARC RATING: 53 cal/cm² | CAT LEVEL: CAT 4

MATERIALS: 7 OZ. OPF BLEND

Lightweight, durable triple-layer hood with eye opening designed for use with arc goggles. Inherently flame-resistant fabric won't melt, drip or ignite, and FR protection won't wash or wear out. Thoughtfully engineered for extended comfortable wear to keep crews protected and focused on the job.

ELECTRICAL HAND PROTECTION

ENESPRO OFFERS CLASS 00, CLASS 0, AND CLASS 2 RUBBER VOLTAGE GLOVES ALONG WITH COMPATIBLE LEATHER PROTECTORS TO PROTECT AGAINST SHOCK HAZARDS. EACH PAIR OF RUBBER VOLTAGE GLOVES IS TESTED FRESH PRIOR TO SHIPMENT AND STAMPED WITH A QR CODE, MAKING IT EASY FOR SAFETY MANAGERS TO TRACK REPLACEMENT TIMELINES AND ENSURE WORKERS STAY COMPLIANT AND PROTECTED.

**CLASS 00 RUBBER VOLTAGE 11" GLOVES**

PRODUCT#: GC00_ _ _

SIZE: 7"-12"

COLORS: ● ● ●

MATERIALS: RUBBER

Maximize safety with these rubber voltage gloves, electrically tested and ready for immediate use. Increased lifespan when paired with our leather protectors.

Max Use Voltage 500V AC/750V DC**CLASS 0 RUBBER VOLTAGE 11" GLOVES**

PRODUCT#: GC0_ _ _

SIZE: 8"-12"

COLORS: ● ● ●

MATERIALS: RUBBER

Rubber voltage gloves engineered for safety and reliability. Rigorously tested before distribution to verify protective performance. Pair with leather protectors to significantly extend glove life during field use. Implement a testing schedule to ensure ongoing worker protection.

Max Use Voltage 1,000V AC/1,500V DC**CLASS 2 RUBBER VOLTAGE 14" GLOVES**

PRODUCT#: GC2_ _ _

SIZE: 8"-12"

COLORS: ● ● ●

MATERIALS: RUBBER

Electrically tested and ready for use. Newly tested before shipment for reliability. Wear with leather protectors (sold separately) to prolong glove life.

Max Use Voltage 17,000V AC/25,500V DC

CLASS 00 VOLTAGE 11" GLOVE KIT

PRODUCT#: KITGC00__

SIZE: 7"-12"

COLORS: ● ● ●

MATERIALS: RUBBER/LEATHER

Engineered for safety and comfort, these rubber voltage gloves are electrically tested and marked with the initial test date. Available in black, red, and yellow color options to suit your preference. Class 00-rated for maximum protection up to 500V AC/750V DC.

CLASS 00 VOLTAGE 11" GLOVE KIT WITH FR LINER GLOVE

PRODUCT#: KITGC00__AG

CLASS 0 VOLTAGE 11" GLOVE KIT

PRODUCT#: KITGC0__

SIZE: 8"-12"

COLORS: ● ● ●

MATERIALS: RUBBER/LEATHER

Insulating rubber gloves with Class 0 rating for use up to 1,000V AC/1,500V DC. Available in a range of colors to suit user preferences. Electrically tested prior to shipping and marked with initial test date for easy tracking.

CLASS 0 VOLTAGE 11" GLOVE KIT WITH FR LINER GLOVE

PRODUCT#: KITGC0__AG

CLASS 2 VOLTAGE 14" GLOVE KIT

PRODUCT#: KITGC2__

SIZE: 8"-12"

COLORS: ● ● ●

MATERIALS: RUBBER/LEATHER

Engineered for safety and comfort, these rubber voltage gloves are electrically tested and marked with the initial test date. Available in black, red, and yellow color options to suit your preference. Class 2-rated for maximum protection up to 17,000V AC/25,500V DC.

CLASS 2 VOLTAGE 14" GLOVE KIT WITH FR LINER GLOVE

PRODUCT#: KITGC2__AG

COMPLIANCE STARTS HERE

TESTING AND RETESTING

- Gloves must be put into use within one (1) year of test date
- If one year has passed since the gloves have been tested and they have not been opened, they must be sent back for retesting
- Once gloves are issued for use, they must be retested within 6 months from the date they were distributed to employees
- In no case can a glove be used beyond twelve (12) months of the test date
- For additional information, refer to ASTM F496

THE CORRECT WAY TO STORE YOUR GLOVES

To ensure gloves are safely stored:

- Keep out of high heat areas
- Avoid high moisture areas
- Don't place in direct sunlight
- Keep out of contact with any chemical substance
- Store flat & don't fold the gloves

USE YOUR PHONE
QR READER APP
TO SCAN YOUR GLOVES'
DATA MATRIX CODE

AFTER YOU SCAN THE DATA
MATRIX CODE, YOU WILL RECEIVE
QUICK & EASY ACCESS TO YOUR
GLOVES' TEST REPORT

GLOVES ARE NEWLY TESTED BEFORE
SHIPMENT AND STAMPED WITH THE

10" LOW VOLTAGE LEATHER PROTECTOR

PRODUCT#: DWH10L__

SIZE: 7"-12"

COLORS:

MATERIALS: GOATSKIN LEATHER

Safeguard hands when using Class 00 and 0 rubber voltage gloves. Pair with rubber voltage gloves for a complete PPE solution that keeps workers protected and productive.

12" LEATHER GLOVE PROTECTORS

PRODUCT#: DWH12L__

SIZE: 8"-12"

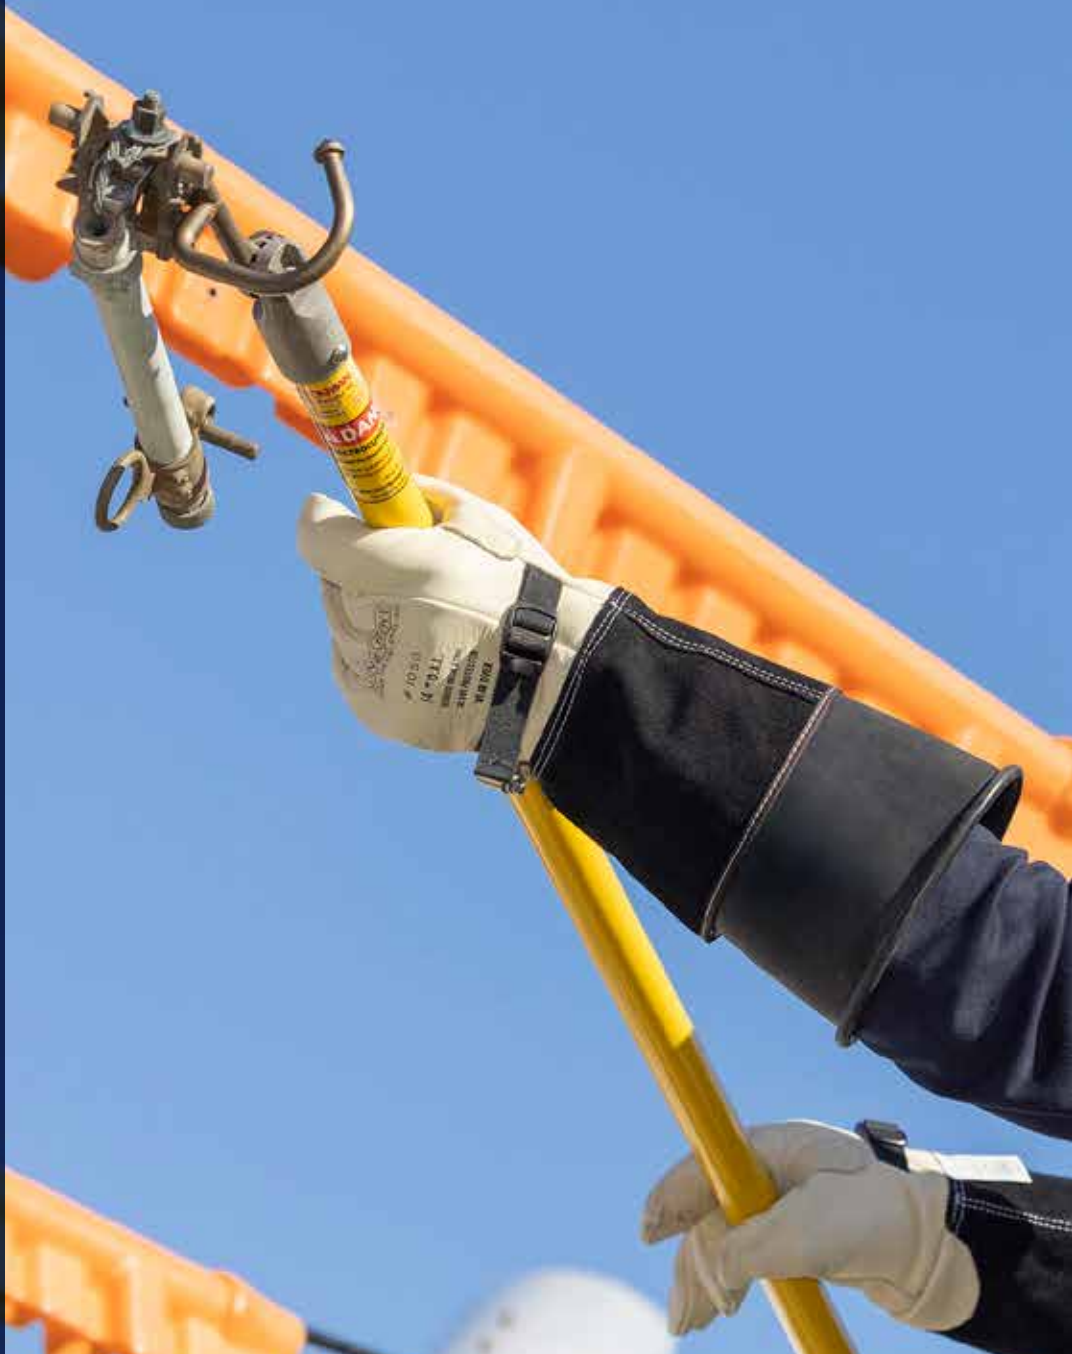

COLORS:

MATERIALS: GOATSKIN LEATHER

Engineered for use with rubber voltage gloves. Rugged leather construction withstands the rigors of the field. Wear them over Class 2 voltage gloves to reduce risk of damage and extend glove life.

ELLECTRICAL SAFETY

THE ENESPRO ELECTRICAL SAFETY LINE EMPOWERS PROFESSIONALS WITH ADVANCED TOOLS AND EQUIPMENT THAT HELP MAKE ENERGIZED WORK SAFER. FROM HOT STICKS WITH COMPATIBLE ATTACHMENTS TO INSULATING BLANKETS AND OTHER CRITICAL EQUIPMENT, ENESPRO PRODUCTS HELP PROTECT WORKERS FROM SHOCK AND MAINTAIN SAFE DISTANCES DURING ELECTRICAL MAINTENANCE.

UNIVERSAL ALLIGATOR HEAD

PRODUCT#: AGHSA-AL

SIZE: ONE SIZE

COLORS: ●

MATERIALS: BRONZE ALLOY

Designed for use with Universal Hotstick, this alligator head attachment enables maintenance on overhead power lines from a safe distance. Disconnect or reconnect various fuse types, cutouts, or switches with precision. Enhances worker safety and efficiency during critical tasks.

UNIVERSAL DISCONNECT HEAD

PRODUCT#: AGHSA-DH

SIZE: ONE SIZE

COLORS: ●

MATERIALS: ALUMINUM ALLOY

Designed for safe maintenance on overhead power distribution, this universal disconnect head enables users to disconnect or reconnect various fuses, cutouts, and switches from a distance. Compatible with universal hotsticks, it empowers workers to perform critical tasks while minimizing electrical hazard exposure.

UNIVERSAL FUSE FANG

PRODUCT#: AGHSA-FF

SIZE: ONE SIZE

COLORS: ●

MATERIALS: BRONZE ALLOY

Designed for overhead power distribution maintenance, this hotstick attachment enables safe disconnection or reconnection of various fuse, cutout, and switch types from an safe distance. Enhances worker safety and efficiency during live-line operations.

UNIVERSAL HOTSTICK

PRODUCT#: AGHS-U _

SIZE: 6'

COLORS: ●

MATERIALS: FIBERGLASS REINFORCED THERMOSET RESIN

Universal "teeth" interface seamlessly with a range of tool attachments for versatile live-line work. Fiberglass reinforced thermoset resins and a uni-cell foam core provide robust shock insulation.

UNIVERSAL CLAMP STICK ADAPTER

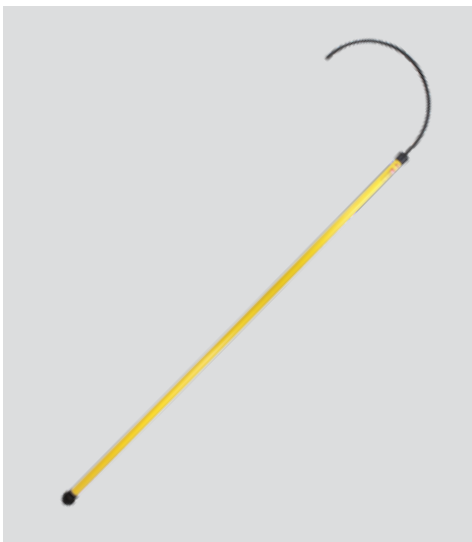

PRODUCT#: AGHSA-SS

SIZE: ONE SIZE

COLORS: ●

MATERIALS: ALUMINUM ALLOY

Universal head attaches and retracts into Clamp Stick, transforming it into a versatile hotstick tool. Universal "teeth" design allows compatibility with a wide range of attachments for tackling various applications.

6-FOOT RESCUE HOOK

PRODUCT#: AGHS-RH6

SIZE: 6'

COLORS: ●

MATERIALS: FIBERGLASS REINFORCED THERMOSET RESIN

Insulated fiberglass handle with a uni-cell foam core protects rescuers from electrical shock. Foam-filled design reinforces against water entry during storage. Powder-coated, heat-treated steel hook is thinner and lighter for ease of use, with a rubber-capped tip. 6' handle with an 18" hook opening.

DISCONNECT HOTSTICK

PRODUCT#: AGHS-DS6

SIZE: 6'

COLORS:

MATERIALS: FIBERGLASS REINFORCED
THERMOSET RESIN

Insulated fiberglass construction with a uni-cell foam core provides shock protection while the fixed disconnect head allows safe operation of overhead fuses, cutouts and switches from a distance. Designed to boost safety for linemen working on energized lines.

STATIC DISCHARGE HOTSTICK

PRODUCT#: AGHS-SDS

SIZE: 3'8"

COLORS:

MATERIALS: FIBERGLASS REINFORCED
THERMOSET RESIN

Engineered with an electrical-grade fiberglass-reinforced thermoset resin exterior and uni-cell foam core for optimal shock hazard insulation. The static discharge stick safely clears any residual static electricity after equipment deenergization. Includes a flat face Class 3 grounding clamp and copper hook to effectively conduct static away from equipment.

UNIVERSAL ACTION-STYLE CAMERA MOUNT

PRODUCT#: AGHSA-CM

SIZE: ONE SIZE

COLORS:

MATERIALS: ALUMINUM ALLOY

Universal stud works with any camera mount, so electrical issues can be safely diagnosed from afar using a hotstick. Includes a mount designed specifically for action-style cameras. Enables live electrical equipment to be inspected and documented remotely, protecting workers from hazardous conditions in the field.

UNIVERSAL CAMERA MOUNT ADAPTER

PRODUCT#: AGHSA-USM

Attach your camera to a hotstick for safe, remote diagnosis of live electrical equipment. Compatible with any camera mount, this adapter features a universal 1/4"-20 stud for easy attachment. Improve employee safety by keeping them at a distance from hazardous energized equipment during troubleshooting.

CLASS 00 ROLL BLANKETS

PRODUCT#: BRC00

SIZE: 36" x 10 YARD ROLL

COLORS: ●

MATERIALS: RUBBER

Self-extinguishing and resistant to extreme cold, these electrically tested roll blankets offer reliable protection up to 500V AC/750V DC. Meets stringent ASTM F2320 Type II, Class 00 standards.

Max Use Voltage 500V AC/750V DC

CLASS 0 ROLL BLANKETS

PRODUCT#: BRC0

SIZE: 36" x 10 YARD ROLL

COLORS: ●

MATERIALS: RUBBER

Self-extinguishing and resistant to -40°F temps, these electrically tested roll blankets are designed for max use voltage of 1,000V AC/1,500V DC.

Max Use Voltage 1,000V AC/1,500V DC

CLASS 1 ROLL BLANKETS

PRODUCT#: BRC1

SIZE: 36" x 10 YARD ROLL

COLORS: ●

MATERIALS: RUBBER

Lightweight, flexible roll blankets. Resistant to low temperatures, self-extinguishing, and electrically tested to ASTM standards. Portable arc flash protection that improves worker safety and peace of mind in potentially hazardous environments.

Max Use Voltage 7,500V AC/11,250V DC

CLASS 1 CLEAR ROLL BLANKETS, 10 YARD ROLL

PRODUCT#: BRC1-CLR

SIZE: 36" x 10 YARD ROLL

COLORS: ●

MATERIALS: PVC

Electrically tested and marked, Class 1-rated for voltages up to 7,500V AC/11,250V DC. Delivers ultimate protection in a 10-yard roll blanket. Engineered for enhanced worker safety and confidence during high-voltage tasks.

Max Use Voltage 7,500V AC/11,250V DC

SWITCHBOARD MATTING, CLASS 2

PRODUCT#: AGSMC2-25

SIZE: 25 YARD ROLL

COLORS: ●

MATERIALS: RUBBER

Electrically tested and marked to withstand up to 17,000V AC/25,500V DC for maximum safety. Engineered to provide exceptional dielectric protection. Instills confidence with a rugged build that stands up to the demands of high voltage environments.

Max Use Voltage 17,000V AC/25,500V DC

BLANKET PINS, 12 PACK

PRODUCT#: AGB-PIN12

SIZE: PACK OF 12

COLORS: ●

Molded rubber tips prevent cracking and splitting for long-lasting durability. Rubber inner surface securely grips blankets without scratching or damage. Wide 5 1/2" clamp opening provides versatile coverage options. Streamlined design reduces snagging hazards.

STORAGE SOLUTIONS

PROTECT THE GEAR THAT HELPS PROTECT YOU WITH ENESPRO STORAGE SOLUTIONS. FROM PREMIUM PADDED BAGS TO RUGGED STORAGE BUILT TO WITHSTAND THE ELEMENTS, OUR SOLUTIONS SAFEGUARD YOUR INVESTMENT AND KEEP CRITICAL PPE IN TOP CONDITION.

PREMIUM SMALL GEAR BAG

PRODUCT#: ENBAG-SM

SIZE: ONE SIZE

COLORS: ●

MATERIALS: POLYESTER

Custom-designed for organized storage of essential electrical PPE. Padded for extra protection of safety glasses and face shield. Waterproof bottom keeps gear dry. Easy-access zipper help you gear up quickly. Durable construction and practical features to simplify PPE management in the field.

PREMIUM LARGE GEAR BAG

PRODUCT#: ENBAG-LG

SIZE: ONE SIZE

COLORS: ●

MATERIALS: POLYESTER

A specialized gear bag designed to keep your PPE organized and accessible. Waterproof bottom keeps gear dry, while padded compartments protect safety glasses and faceshields. Grommet vents help control odor. Thoughtful features like a glove pocket and care instructions printed inside elevate the user experience.

PREMIUM BACKPACK

PRODUCT#: ENBKPACK-LG

SIZE: ONE SIZE

COLORS: ●

MATERIALS: POLYESTER

Designed for modern electrical safety, this backpack features ergonomic padded handles and shoulder straps, a large front pocket for glove kit storage, and waterproof bottom coating to keep PPE dry. U-shaped zipper opening allows for easy gear access, while the custom padded interior protects faceshields.

BASIC BACKPACK

PRODUCT#: AG-BACKPACK

SIZE: 16" x 12" x 20"

COLORS: ●

MATERIALS: POLYESTER

Large main compartment with top zipper plus easy-access side pockets for storing PPE accessories. Padded shoulder straps and top handle make it comfortable to carry for long periods. Durable construction stands up to demanding work environments.

ENESPRO BASIC SMALL GEAR BAG

PRODUCT#: DFDLBAG402

SIZE: 14" x 14" x 18"

COLORS: ●

MATERIALS: POLYESTER

Spacious gear bag with adjustable shoulder strap for easy carrying. Large front pocket keeps essentials organized and accessible.

WEATHER-TOUGH GEAR BAG

PRODUCT#: ENBAG-VIB

SIZE: 24" X 10" X 18"

COLORS: ●

MATERIALS: VINYL

Durable, weather-tough gear bag made from water-resistant vinyl with a reinforced molded bottom. Sturdy nylon frame keeps the bag open for easy access through the large protective rain flap. Two roomy exterior pockets are perfect for stashing gloves or tools. Flexible yet rugged construction stands up to demanding jobsite conditions.

MULTI-POCKET DELUXE TOOL BAG

PRODUCT#: ENBAG-MPB

SIZE: 15" X 8" X 13"

COLORS: ●

MATERIALS: POLYESTER

Rugged polyester canvas construction with reinforced straps and double-stitched molded bottom provides exceptional durability for demanding job sites. Flexible nylon frame keeps bag open for easy access to 24 thoughtfully designed pockets.

MULTI-POCKET OVAL TOOL BUCKET

PRODUCT#: ENBAG-OTB

SIZE: 15" X 6" X 10"

COLORS: ●

MATERIALS: POLYESTER

Ruggedly constructed from double-stitched polyester canvas with a molded plastic base for stability and longevity in demanding environments. Reinforced nylon straps and a plastic-lined body provide durability, while 26 interior and exterior pockets offer ample tool organization.

ADVANCED COMFORT + PROTECTION FOR DEMANDING ENVIRONMENTS.

Since 1935, NSA has been a leader in delivering advanced safety solutions for workers in high heat and industrial environments. Our extensive range of PPE includes protective gear for workers facing extreme heat, molten metal, cut, and abrasion hazards. Whether in foundries, mills, or industrial manufacturing, our products are designed to safeguard workers in the toughest environments.

NSA's innovative designs offer lightweight comfort without compromising safety. We are committed to offering superior protection and comfort, helping workers stay safe, productive, and comfortable in high-risk environments.

PRIMA ALUMINIZED

RADIANT HEAT PROTECTION: ALUMINIZED FABRIC ACTS AS A MIRROR, REFLECTING RADIANT HEAT AWAY FROM THE WEARER.

MOLTEN SPLASH PROTECTION: FABRICS HAVE THE ABILITY TO SHED MOLTEN SPLASH AND INSULATE THE WEARER FROM HEAT OR BURN.

CARBON ARMOUR™ ALUMINIZED OPF RIPSTOP DELUXE HOOD

PRODUCT#: H15H5GOLD

SIZE: ONE SIZE FITS MOST

COLORS: ●

MATERIALS: 11 OZ. ALUMINIZED OPF-CARBON
RIPSTOP BLEND

Lightweight and comfortable aluminized hood with premium gold faceshield reflects extreme radiant heat, sparks, and molten metal splash. Hard polycarbonate exterior resists damage from abrasion. Faceshield flips up for ventilation out of hazard zones.

CARBON ARMOUR™ ALUMINIZED OPF RIPSTOP JACKET

PRODUCT#: NXJH5C_____

SIZE: MD-3X

COLORS: ●

MATERIALS: 11 OZ. ALUMINIZED OPF-CARBON
RIPSTOP BLEND

Lightweight, ventilated, and articulated for unrestricted movement. Protects against radiant heat, sparks, and molten metal splash. Snap front with leather pull tabs for easy on/off with gloves. Extended tail hem and underarm gussets provide superior mobility and coverage.

CARBON ARMOUR™ ALUMINIZED OPF RIPSTOP LEGGINGS

PRODUCT#: L05H5H5VCFS__

SIZE: LG-XL

COLORS: ●

MATERIALS: 11 OZ. ALUMINIZED OPF-CARBON
RIPSTOP BLEND

Constructed from durable aluminized flame-resistant fabric, these leggings feature integrated foot flaps and fiber-reinforced shin stays for reliable protection against radiant heat, sparks, and molten splash in potentially hazardous industrial environments. Hook & loop closures ensure a secure fit over work boots, while lightweight ripstop fabric delivers comfort and performance.

DELUXE ALUMINIZED HOOD

PRODUCT#: H58NLHG

SIZE: ONE SIZE FITS MOST

COLORS: ●

MATERIALS: 19 OZ. ALUMINIZED OPF/
PARA-ARAMID

Provides robust protection against radiant heat, sparks, and molten metal splash hazards. The gold film faceshield cover offers enhanced radiant heat shielding. Universal headgear included for easy integration with hard hats. Reliable, durable performance keeps workers safe in demanding industrial environments.

CARBON ARMOUR™ ALUMINIZED COAT

PRODUCT#: C22NL_ _ _ _

SIZE: MD-2X, 30" LENGTH, 45" LENGTH

COLORS: ●

MATERIALS: 19 OZ. ALUMINIZED OPF/
PARA-ARAMID

Vented back and under-arm grommets maximize breathability in this aluminized coat, with a covered snap front and leather pull tabs for easy use with gloves. FR cotton-lined collar adds comfort, while wrist snaps allow adjustability. Rely on superior protection from radiant heat, sparks, and molten metal splash on the job.

CARBON ARMOUR™ ALUMINIZED APRON

PRODUCT#: A02NL24X36

SIZE: 24" x 36"

COLORS: ●

MATERIALS: 19 OZ. ALUMINIZED OPF/
PARA-ARAMID

Rugged leather straps with quick-adjust snap closures at neck and waist for a secure, custom fit. Provides reliable protection from intense radiant heat, sparks, and molten metal splashes. Durable aluminized construction stands up to demanding industrial environments.

CARBON ARMOUR™ ALUMINIZED SLEEVES

PRODUCT#: S02NL18

SIZE: ONE SIZE FITS MOST

COLORS: ●

MATERIALS: 19 OZ. ALUMINIZED OPF/
PARA-ARAMID

Aluminized sleeves deliver exceptional protection against radiant heat, sparks, and molten metal splash. Snap wrist closures ensure a secure fit for comfort and confidence in the toughest industrial conditions. Durable, high-performance materials stand up to daily rigors without fail.

CARBON ARMOUR™ ALUMINIZED LEGGINGS

PRODUCT#: L05NLNLVC_ _ _ _ _

SIZE: LG-XL

COLORS: ●

MATERIALS: 19 OZ. ALUMINIZED OPF/
PARA-ARAMID

Aluminized FR leggings with hook & loop closure provide superior protection from radiant heat, sparks, and molten metal splash. Foot flap with soft steel frame fits over work boots for full coverage, while fiber stays in shin pockets add stability for comfort and performance.

CARBON ARMOUR™ ALUMINIZED OVER PANTS

PRODUCT#: T45NL_ _ X_ _

SIZE: MD-2X

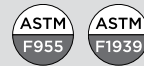

COLORS: ●

MATERIALS: 19 OZ. ALUMINIZED OPF/PARA-ARAMID

CARBON ARMOUR™ ALUMINIZED CHAPS

PRODUCT#: L40NLNL_ _

SIZE: 38" LENGTH, 40" LENGTH

HIGH HEAT
SECONDARY
PROTECTION

EXTRA LAYER OF THERMAL INSULATION AND FR PROTECTION

FLAME RESISTANCE: FABRICS SELF-EXTINGUISH TO HELP PREVENT BURN

HEAT RESISTANCE: CARBON-BASED FABRICS OFFER LOW THERMAL CONDUCTIVITY – LESS HEAT IS TRANSFERRED THROUGH THE MATERIAL TO THE WEARER

CARBON ARMOUR™ SAFEGUARD JACKET

PRODUCT#: NXJN4C_ _ _ _

SIZE: MD-3X

COLORS: ●

MATERIALS: 9.5 OZ. SAFEGUARD COATING TECHNOLOGY OPF-CARBON BLEND

Articulated elbows and an action back provide full range of motion, while underarm gussets enhance mobility in this protective jacket. Safeguard against sparks and molten metal splashes, and enjoy extended coverage with a contoured tail hem.

WELDING COMPLIANCE: EN ISO 11611 A1, Class 2; A2, Class 2; 6.8 impact of spatter, Class 2; 6.9 heat transfer (radiation), Class 1

CARBON ARMOUR™ COVERALL

PRODUCT#: SPXHPCA0208_ _RG

SIZE: MD-3X, REGULAR

COLORS: ●

ARC RATING: 9 cal/cm² | **CAT LEVEL:** CAT 2

MATERIALS: 6.4 OZ. OPF BLEND TWILL

Ultra-lightweight and tear-resistant, with a flexible action back for unrestricted movement. Inherent flame resistance won't wash or wear out, delivering reliable protection and all-day comfort in a durable coverall.

WELDING COMPLIANCE: EN ISO 11611 A1, Class 2; A2, Class 2; 6.8 impact of spatter, Class 2; 6.9 heat transfer (radiation), Class 1

CARBON ARMOUR™ RIPSTOP JACKET

PRODUCT#: C07H3GCBG_30

SIZE: SM-3X

COLORS: ●

ARC RATING: 9.9 cal/cm² | CAT LEVEL: CAT 2

MATERIALS: 8.6 OZ. OPF BLEND RIPSTOP

The NSA CARBON ARMOUR Ripstop jacket provides durable FR protection without weighing you down. The 8.6 oz. OPF/Carbon Blend Ripstop material is 34% lighter than traditional 13 oz. 100% cotton, making this multi-functional jacket a comfortable alternative for welding or layering under primary aluminized PPE.

WELDING COMPLIANCE: EN ISO 11611 A1, Class 2; A2, Class 2; 6.8 impact of spatter, Class 2; 6.9 heat transfer (radiation), Class 1

CARBON ARMOUR™ SLEEVE WITH THUMBHOLE

PRODUCT#: S02H3GC01_

SIZE: LG

COLORS: ●

ARC RATING: 9.9 cal/cm² | CAT LEVEL: CAT 2

MATERIALS: 8.6 OZ. OPF BLEND RIPSTOP

Built with lighter, tougher carbon fiber fabric for unrivaled strength and flame resistance that won't wash or wear out. Designed with a thumbhole for full coverage and elastic to stay in place. Delivers lasting protection and all-day comfort in harsh conditions.

CARBON ARMOUR™ FR BASE LAYER SHIRT

PRODUCT#: BSTAVLS_

SIZE: SM-3X

COLORS: ●

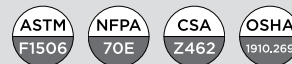

ARC RATING: 12 cal/cm² | CAT LEVEL: CAT 2

MATERIALS: 6 OZ. CARBON ARMOUR™ AV

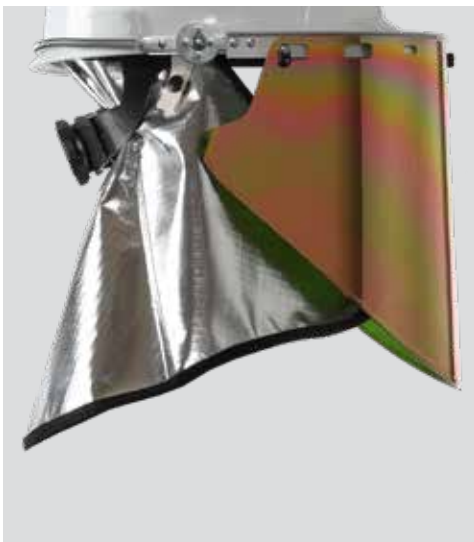

Lightweight, flame-resistant base layer mock turtleneck with rib knit cuffs delivers lasting comfort and coverage. Moisture-wicking, quick-drying performance is ideal for all-day wear in high heat settings.

CARBON ARMOUR™ FR BASE LAYER PANT

PRODUCT#: BSBV_

HIGH HEAT HEAD PROTECTION

ALUMINIZED HIGH HEAT HEAD PROTECTION KIT

PRODUCT#: KIT-GRGLD-ALSHRD

SIZE: ONE SIZE FITS MOST

COLORS: 

MATERIALS: POLYCARBONATE FACESHIELD WITH ALUMINIZED OPF-CARBON RIPSTOP SHROUD

Delivers superior head and neck protection in extreme heat environments. Gold-tinted faceshield and aluminized shroud provide omni-directional protection from intense heat, sparks, and molten metal splash. Breathable design and contoured fit maximize airflow and coverage for cool, comfortable all-day wear. **Hard hat not included.**

HIGH HEAT HEAD PROTECTION KIT

PRODUCT#: KIT-ALUM-FRSHRD

SIZE: ONE SIZE FITS MOST

COLORS: ●

MATERIALS: ALUMINIZED POLYCARBONATE FACESHIELD WITH OPF BLEND RIPSTOP SHROUD

Omni-directional high heat, spark, and spatter protection with impact-resistant polycarbonate faceshield. FR shroud provides superior breathability and coverage in high-temp environments. Durable metal bracket withstands prolonged heat exposure. Compatible with most cap-style hard hats. **Hard hat not included.**

WELDING COMPLIANCE: EN ISO 11611 A1, Class 2; A2, Class 2; 6.8 impact of spatter, Class 2; 6.9 heat transfer (radiation), Class 1

CARBON ARMOUR™ ALUMINIZED RIPSTOP HIGH HEAT SHROUD

PRODUCT#: H5AL-SHRD

SIZE: ONE SIZE FITS MOST

COLORS: ●

MATERIALS: 11 OZ. ALUMINIZED OPF-CARBON RIPSTOP BLEND

Lightweight ripstop material offers exceptional protection from radiant heat, sparks, and molten metal splash while providing superior tensile and tear strength. Contoured design allows shroud to lie comfortably over shoulders for better coverage of the face and neck. Universal strap & buckle system secures to any hard hat. **Hard hat not included.**

CARBON ARMOUR™ RIPSTOP HIGH HEAT SHROUD

PRODUCT#: H3FR-SHRD

SIZE: ONE SIZE FITS MOST

COLORS: ●

MATERIALS: 8.6 OZ. OPF BLEND RIPSTOP

Lightweight ripstop fabric delivers maximum mobility and exceptional tear strength, while the inherently flame-resistant design provides lasting protection from sparks and spatter. The contoured cut offers enhanced coverage for the face and neck. Universal strap and buckle system securely fits any hard hat. **Hard hat not included.**

WELDING COMPLIANCE: EN ISO 11611 A1, Class 2; A2, Class 2; 6.8 impact of spatter, Class 2; 6.9 heat transfer (radiation), Class 1

CLEAR XTR HIGH HEAT FACESHIELD WITH METAL BRACKET

PRODUCT#: HS-XTR-CLR-MB

SIZE: ONE SIZE FITS MOST

MATERIALS: Polycarbonate

Transparent, toric-shaped polycarbonate faceshield delivers impact protection and optical clarity in high-heat industrial applications. Compact, low-profile design extends field of vision without sacrificing coverage. Metal bracket withstands prolonged high-temp exposure and fits most cap-style hard hats.

CLEAR ALUMINIZED HIGH HEAT FACESHIELD WITH METAL BRACKET

PRODUCT#: HS-ALUM-MB

SIZE: ONE SIZE FITS MOST

MATERIALS: POLYCARBONATE WITH ALUMINIZED FILM

Aluminized film reflects radiant heat and ultraviolet radiation, while impact-resistant polycarbonate protects against high-speed impact. Metal bracket is built to withstand prolonged exposure to high heat environments and is compatible with most cap-style hard hats. Ideal for moderate temperature molten metal applications.

GOLD EXTREME HEAT FACESHIELD WITH METAL BRACKET

PRODUCT#: HS-GOLD-MB

SIZE: ONE SIZE FITS MOST

MATERIALS: POLYCARBONATE WITH GOLD HARD COATING

Engineered for extreme temperature molten metal applications. Premium gold coating reflects extreme radiant heat and infrared radiation. Injection-molded polycarbonate provides excellent protection against high-speed impact hazards. Gold tint resists abrasion damage for extended service life. Metal bracket withstands prolonged exposure to high heat.

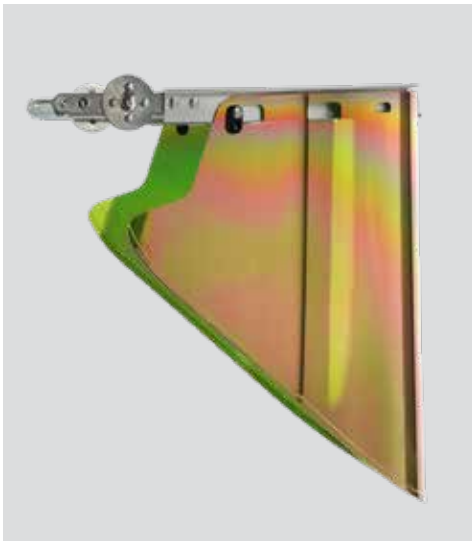

GOLD XTR EXTREME HEAT FACESHIELD WITH METAL BRACKET

PRODUCT#: HS-XTR-GOLD-MB

SIZE: ONE SIZE FITS MOST

MATERIALS: POLYCARBONATE WITH GOLD HARD COATING

Premium gold coating reflects extreme radiant heat while durable polycarbonate protects against high-speed impact. Innovative toric shape reduces glare and distortion, extending peripheral vision. Low-profile design ideal for confined spaces. Metal bracket withstands prolonged high heat exposure.

GOLD ON GREEN EXTREME HEAT FACESHIELD WITH METAL BRACKET

PRODUCT#: HS-GRGLD-MB

SIZE: ONE SIZE FITS MOST

MATERIALS: POLYCARBONATE WITH GOLD HARD COATING

Premium gold coating reflects intense radiant heat and infrared radiation, while injection-molded polycarbonate provides impact protection. Medium green shade enhances visibility and guards against bright light in extreme heat applications. Durable gold tint resists abrasion for extended service life. Metal bracket withstands prolonged high heat exposure.

NOMEX® SHORT FR BALACLAVA

PRODUCT#: H12NK

SIZE: ONE SIZE FITS MOST

COLORS: ○

MATERIALS: 6 OZ. NOMEX® INTERLOCK KNIT

Lightweight, durable, and designed for all-day comfort under a hard hat, this single layer FR balaclava features a large face opening and flat lock seams. Inherently flame-resistant fabric delivers lasting protection that won't wash or wear out, keeping workers safe day in and day out.

NOMEX® FR BALACLAVA WITH EYE OPENING

PRODUCT#: H41NK

SIZE: ONE SIZE FITS MOST

COLORS: ○

MATERIALS: 6 OZ. NOMEX® INTERLOCK KNIT

Inherently flame-resistant balaclava with triple layer top and single layer bib for lasting protection in high-heat environments. Comfortable and reliable head-to-neck coverage you can count on, shift after shift.

NOMEX® FR BALACLAVA

PRODUCT#: H31NK

SIZE: ONE SIZE FITS MOST

COLORS: ○

MATERIALS: 6 OZ. NOMEX® INTERLOCK KNIT

Inherently flame-resistant top and bib design delivers lasting FR protection that won't wash or wear out. Double-layer top and large face opening provide all-day comfort under a hard hat, with durable, lightweight fabric and flat lock seams for reliable performance.

NOMEX®/LENZING FR BALACLAVA

PRODUCT#: H31LK

SIZE: ONE SIZE FITS MOST

COLORS: ○

MATERIALS: 6 OZ. META-ARAMID/LENZING INTERLOCK KNIT

Inherently flame-resistant double layer top with single layer bib design provides lasting protection that won't wash or wear out. Lenzing FR fabric offers enhanced comfort and moisture-wicking performance. Flat lock seams and large face opening ensure all-day comfort under hard hats and other PPE.

PBI BLEND BALACLAVA

PRODUCT#: H31PK

SIZE: ONE SIZE FITS MOST

COLORS: ●

MATERIALS: 6 OZ. DOUBLE LAYER PBI KNIT

Double-layer top and single-layer bib offer reliable flame resistance that won't wash or wear out. Large face opening and flat lock seams provide lasting comfort under hard hats. Durable, lightweight design stands up to daily rigors while keeping workers protected.

CARBON ARMOUR™ FR BALACLAVA

PRODUCT#: H18CX

SIZE: ONE SIZE FITS MOST

COLORS: ●

ARC RATING: 30 cal/cm² | **CAT LEVEL:** CAT 3

MATERIALS: 7 OZ. OPF-CARBON RIB KNIT

CARBON ARMOUR™ 30 CAL PREMIUM FR BALACLAVA

PRODUCT#: H100CX __

SIZE: RG, XL

MATERIALS: 14 OZ. OPF-CARBON RIB KNIT

HIGH HEAT HAND PROTECTION

ENGINEERED FOR THE TOUGHEST INDUSTRIAL ENVIRONMENTS, NSA'S HIGH HEAT HAND PROTECTION LINE DELIVERS COVERAGE AGAINST EXTREME HEAT, MOLTEN METAL HAZARDS, AND MECHANICAL THREATS — ALL WITHOUT SACRIFICING COMFORT OR DEXTERITY. IDEAL FOR FOUNDRY OPERATIONS, STEEL MILLS, WELDING, METAL CASTING, AND OTHER MANUFACTURING ENVIRONMENTS WHERE SAFETY CANNOT BE COMPROMISED.

CONDUCTIVE HEAT RATINGS FOR GLOVES

ANSI/ISEA 105 CONTACT HEAT

LEVEL 6* UP TO 1000°F

LEVEL 5 UP TO 600°F

LEVEL 4 UP TO 500°F

LEVEL 3 UP TO 395°F

LEVEL 2 UP TO 285°F

ANSI/ISEA 105 is the Hand Protection Classification Standard referenced for industrial applications.

ASTM F1060 is the test method that determines conductive heat (or contact heat), plus the time to second-degree burn at various heat levels.

*While ANSI/ISEA 105 maxes out contact heat ratings at level 5 (600°F), NSA worked with a third party to test beyond this 600-degree limit. We classify gloves that tested up to 1000°F as Level 6. While this is outside the scope of the standard, we recognize the need for high heat hazard protection.

LEATHER HIGH HEAT LEVEL 3 GLOVE WITH ALUMINIZED BACK

PRODUCT#: DJXG395

SIZE: 13"

COLORS: ●

MATERIALS: 16 OZ. ALUMINIZED RAYON

High heat protection with a wool-lined palm and aluminized back for radiant heat, plus a cotton duck cuff for comfort. Winged thumb design enhances dexterity. Tested to withstand 395°F contact heat for over 20.6 seconds on average. Durable performance for demanding jobs.

REVERSED TERRY LEVEL 4 HIGH HEAT GLOVE WITH TWILL CUFF

PRODUCT#: G4_RTRF12

SIZE: 12" LENGTH, REGULAR, LARGE, JUMBO

COLORS: ●

MATERIALS: 22 OZ. REVERSED KEVLAR® TERRYCLOTH & 8 OZ. KEVLAR® TWILL CUFF

Tested to withstand 500°F contact heat for 19.12 seconds on average. Featuring a wool lining for added comfort, a winged thumb for mobility, and a twill cuff that defends against cuts, punctures, and abrasion. Ambidextrous design ensures easy on and off.

THERMOBEST™ HIGH HEAT WING THUMB GLOVE

PRODUCT#: G64TCVBGC14

SIZE: 14"

COLORS: ●

MATERIALS: 22 OZ. ARAMID/FIBERGLASS & 19 OZ. GOLDENBEST CUFF

Tested to withstand 500°F contact heat for over 22 seconds on average. Wool-lined with a winged thumb for enhanced dexterity, this glove provides robust defense against cuts, punctures, abrasion, and high temperatures. Built tough to keep hands safe and productive.

THERMOBEST™ HIGH HEAT GLOVE WITH KEVLAR® CUFF

PRODUCT#: G51TCVB14

SIZE: 14"

COLORS: ●

MATERIALS: 22 OZ. ARAMID/FIBERGLASS & 8 OZ. KEVLAR® TWILL CUFF

Rugged yet flexible glove delivers exceptional heat, cut, and abrasion protection for your hands. Wool lining for thermal insulation with Kevlar® cuff guards your wrist. Tested to withstand 500°F contact heat for over 22 seconds on average.

THERMOBEST™ ALUMINIZED HIGH HEAT LEVEL 4 GLOVE

PRODUCT#: G51TCVB11614

SIZE: 14"

COLORS: ●

MATERIALS: 22 OZ. ARAMID/FIBERGLASS BLEND

Aluminized back delivers radiant heat and molten metal protection with wool lining for thermal insulation. Design ensures high heat, cut, puncture, and abrasion resistance, delivering reliable defense in demanding conditions. Tested to withstand 500°F.

LEVEL 4 HIGH HEAT ALUMINIZED LEATHER GLOVE

PRODUCT#: DJXG1788DBWLSPF

SIZE: 13"

COLORS: ●

MATERIALS: ALUMINIZED LEATHER

Wool-lined with an aluminized back for radiant heat protection up to 500°F, these gloves stand up to high temperatures. Winged thumb design ensures comfort and dexterity. Tested to withstand 500°F contact heat for nearly 20 seconds on average.

ALUMINIZED HIGH HEAT GLOVE WITH LEATHER PALM

PRODUCT#: DJXGSP382

SIZE: 13"

COLORS: ●

MATERIALS: 19 OZ. ALUMINIZED OPF/PARA-ARAMID

ALUMINIZED HIGH HEAT GLOVE WITH LEATHER PALM & ADJUSTABLE STRAP

PRODUCT#: DJXG382__

SIZE: REGULAR, JUMBO

PBI HIGH HEAT WING THUMB GLOVE

PRODUCT#: G64PBVB07214

SIZE: 14"

COLORS: ●

MATERIALS: 22 OZ. PBI & 19 OZ. GOLDENBEST CUFF

Wool-lined with a winged thumb for enhanced dexterity and comfort. Tested to withstand 600°F for over 17 seconds. Delivers reliable high heat and cut resistance to keep hands safe and productive in extreme conditions.

PBI HIGH HEAT LEVEL 5 GLOVE

PRODUCT#: G51PBRW13714

SIZE: 14"

COLORS: ●

MATERIALS: 22 OZ. PBI & 22 OZ. ARAMID/FIBERGLASS BLEND CUFF

Reversed wool lining provides heat protection up to 600°F, while a winged thumb design ensures full range of motion and dexterity. Rugged cuff patch adds durability for demanding industrial work.

HEAVY DUTY PBI HIGH HEAT GLOVE

PRODUCT#: G51PCLW13714

SIZE: 14"

COLORS: ●

MATERIALS: 45 OZ. PBI & 22 OZ. THERMOBEST™ CUFF

Wool-lined heat-resistant gloves with cut protection and a straight thumb design, providing 18.3 seconds of thermal protection up to 600°F. Rugged cuff patch for enhanced durability in demanding work environments.

THERMOBEST™ ALUMINIZED HIGH HEAT GLOVE WITH WING THUMB

PRODUCT#: G64TCSR0114

SIZE: 14"

COLORS: ●

MATERIALS: 22 OZ. ARAMID/FIBERGLASS BLEND WITH ALUMINIZED OPF/ARAMID BLEND

Aluminized back provides radiant heat and molten metal protection while the palm delivers high heat, cut, puncture, and abrasion resistance. Reversed wool lining and winged thumb design maximize dexterity and comfort in extreme conditions. Built tough to keep hands safe and productive.

THERMOBEST™ ALUMINIZED HIGH HEAT LEVEL 5 GLOVE

PRODUCT#: G51TCNL14

SIZE: 14"

COLORS: ●

MATERIALS: 22 OZ. ARAMID/FIBERGLASS BLEND

Aluminized back provides radiant heat and molten metal protection while FR felt lining keeps hands safe and comfortable. Tested to withstand 600°F for over 20 seconds. Straight thumb design allows for excellent grip. Cut, puncture, and abrasion-resistant for reliability in extreme conditions.

CARBON ARMOUR™ DELUXE HIGH HEAT GLOVE

PRODUCT#: G04H5VB17

SIZE: 17"

COLORS: ●

MATERIALS: 11 OZ. ALUMINIZED OPF-CARBON RIPSTOP

Provides protection from high heat and cuts with a flexible Aramid palm for dexterity. Aluminized back guards against radiant heat and molten metal, while a soft wool lining insulates. Winged thumb and hook & loop cuff deliver comfort and a secure fit.

TERRY EXTREME HEAT GLOVE WITH TWILL CUFF

PRODUCT#: G51KTLW00214

SIZE: 14"

COLORS: ●

MATERIALS: 22 OZ. KEVLAR® TERRY CLOTH & 8 OZ. KEVLAR® TWILL CUFF

Tested to ASTM F1060 at 1,000°F with an average time to second-degree burn of 26.66 seconds. A wool lining and palm patch provide added insulation and comfort, while the durable twill cuff enhances cut, puncture, and abrasion resistance. The straight-thumb design ensures dexterity and control during critical tasks.

THERMOBEST™ EXTREME HEAT GLOVE

PRODUCT#: G51TCVB11514

SIZE: 14"

COLORS: ●

MATERIALS: 22 OZ. ARAMID/FIBERGLASS & 8 OZ. KEVLAR® TWILL CUFF

Tested up to 1,000°F, this wool-lined glove with reinforced palm patch provides high heat, cut, puncture, and abrasion protection for up to 30 seconds without second-degree burn. Straight thumb ensures full range of motion for maximum dexterity on the job.

ALUMINIZED EXTREME HEAT GLOVE WITH LEATHER PALM

PRODUCT#: DJX17SPEC3

SIZE: 16"

COLORS: ●

MATERIALS: 16 OZ. ALUMINIZED RAYON

Wool-lined, heat-tested gloves for handling extreme temperatures. Thermal leather palm, knuckle patches, and aluminized index finger for heat protection up to 1,000°F. Straight thumb and hook & loop cuff adjustment for a secure, comfortable fit on the job.

EXTREME HEAT LEATHER GLOVE WITH ALUMINIZED BACK & SNAP ADJUSTMENT

PRODUCT#: DJXG705185XL

SIZE: 18.5"

COLORS: ●

MATERIALS: 16 OZ. ALUMINIZED RAYON

EXTREME HEAT LEATHER GLOVE WITH ALUMINIZED BACK & HOOK & LOOP ADJUSTMENT

PRODUCT#: DJXG705165XL

SIZE: 16.5"

PBI HEAVY DUTY HIGH HEAT LINED MITTEN

PRODUCT#: M52PCLW00214

SIZE: 14"

COLORS: ●

MATERIALS: 45 OZ. PBI & 22 OZ. THERMOBEST™ CUFF

Heavy-duty high heat protection with a wool lining for heat insulation. Tested to withstand 600°F for over 17 seconds. Features a sturdy cuff patch for a secure fit.

COATED FIBERGLASS EXTREME HEAT LINED MITTEN

PRODUCT#: M60ZPRH01014

SIZE: 14"

COLORS: ●

MATERIALS: 40 oz. Coated Fiberglass

COATED FIBERGLASS SLIPOVER MITTEN COVER

PRODUCT#: M59ZPXX10

SIZE: 10"

HEAVY FIBERGLASS EXTREME HEAT LINED MITTEN

PRODUCT#: M60WHGH01213

SIZE: 13"

COLORS: ●

MATERIALS: 48 OZ. HIGH TEMP FIBERGLASS

HEAVY FIBERGLASS SLIPOVER MITTEN COVER

PRODUCT#: M59WHXX10

SIZE: 10"

THERMOBEST™ EXTREME HEAT LINED MITTEN

PRODUCT#: M11TCVB02213

SIZE: 13"

COLORS: ●

MATERIALS: 22 OZ. THERMOBEST™

High-heat protection up to 1000°F for 30 seconds. Wool lining and palm patch for thermal insulation. Nomex® felt palm patch for durability. Compatible with slipover for extended protection and longevity. Ideal for high-heat industrial environments requiring cut, puncture, and abrasion resistance.

THERMOBEST™ HIGH HEAT LINED MITTEN

PRODUCT#: M11TCVB13

SIZE: 13"

COLORS: ●

MATERIALS: 22 OZ. ARAMID/FIBERGLASS BLEND

Rugged, high-heat protection. Wool-lined for extra insulation, these mittens combine cut, puncture, and abrasion resistance. Pair with compatible slipovers for maximum longevity and performance.

THERMOBEST™ SLIPOVER MITTEN COVER

PRODUCT#: M10TCXX10

SIZE: 10"

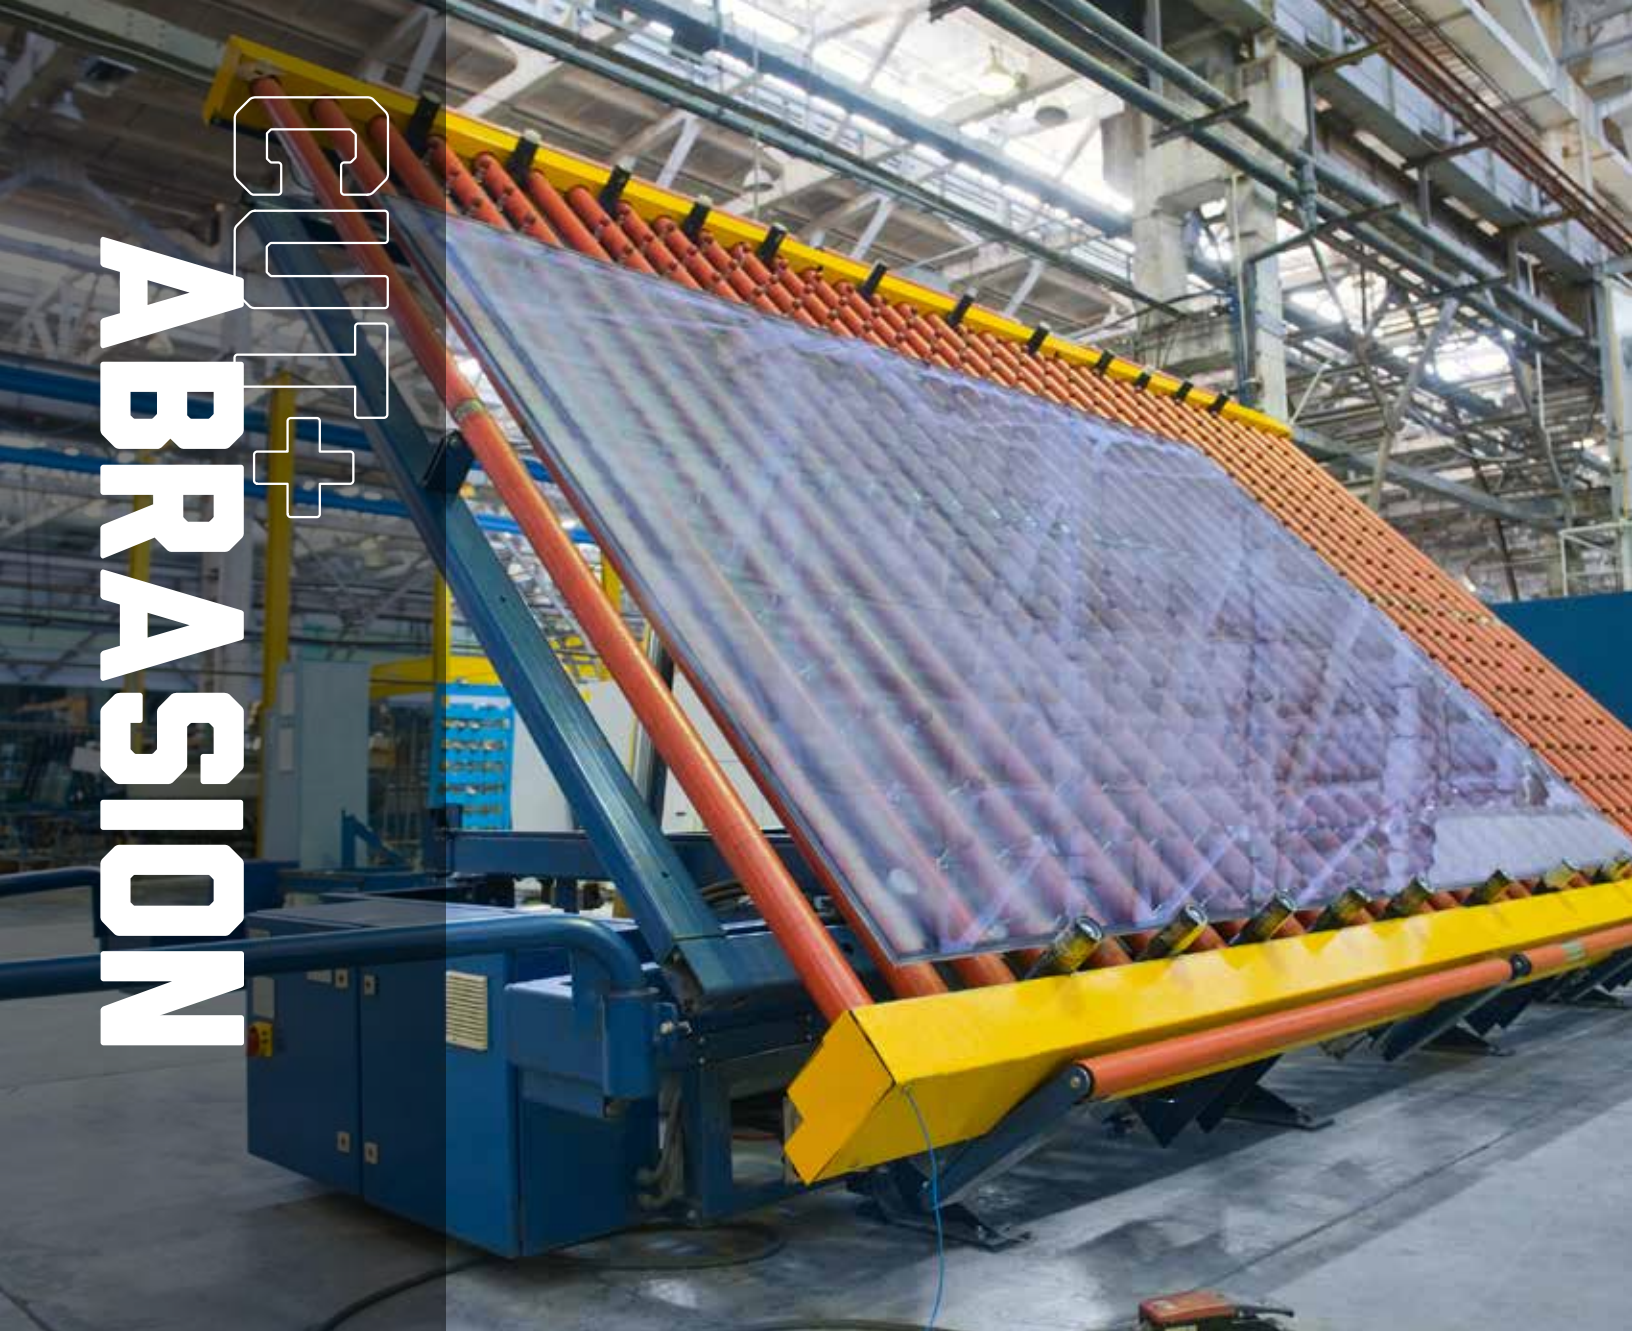

COLORS: ●

MATERIALS: 22 OZ. ARAMID/FIBERGLASS BLEND

Unlined slipover mitten covers provide high heat, cut, puncture, and abrasion resistance. Wear over mittens to prolong life and guard against daily wear and tear in demanding conditions.

CUT + ABRASION

CUT LEVEL A3 BIB APRON

PRODUCT#: A02KV24X36

SIZE: 24" x 36"

COLORS: ●

MATERIALS: 8 OZ. DUPONT™ KEVLAR® TWILL

Durable, abrasion-resistant Kevlar® bib apron with adjustable neck and waist straps for a customized fit. Cut and puncture-resistant for demanding industrial environments.

CUT LEVEL A3 CAP SLEEVE

PRODUCT#: S30KV__

SIZE: SLEEVE LENGTH: 25-31"

COLORS: ●

MATERIALS: 8 OZ. KEVLAR® TWILL

Durable cut, puncture, and abrasion protection in a cap sleeve design. Snap closure at wrist for easy on and off. Includes two 9" alligator clips to keep sleeves in place. Aluminum eyelets provide enhanced cut resistance while improving breathability.

CUT LEVEL A3 POLY MESH WRISTLET

PRODUCT#: S01MC_X__

SIZE: MD-XL, 7" LENGTH, 9" LENGTH

COLORS: ●

MATERIALS: DOUBLE LAYER POLYESTER MESH

Poly mesh knit provides an economical option for wristlet cut protection. Provides A3 cut resistance plus puncture and abrasion protection in a comfortable, hook & loop closure design. Durable construction for reliable defense in demanding work environments.

CUT LEVEL A3 KNIT SLEEVE WITH THUMBHOLE

PRODUCT#: S00KN0318

SIZE: ONE SIZE

COLORS: ●

MATERIALS: TWO-PLY ARAMID KNIT

Flexible, comfortable stretch knit sleeve with a thumbhole for extended coverage. Designed to be worn to the elbow or middle of the upper arm for cut, puncture, abrasion, and high heat protection.

CUT LEVEL A3 KNIT SLEEVE

PRODUCT#: S00KN18

CRYOGENIC PROTECTION

CRYOGENIC APRON

PRODUCT#: A02CRC__X__

SIZE: 24" x 36", 24" x 42", 24" x 48"

COLORS: ●

MATERIALS: TEFLON™-LAMINATED NYLON

Thinsulate™ liner and water-resistant fabric deliver superior insulation. Adjustable strap and buckle closures at the waist and neck provide a secure, custom fit.

CRYOGENIC FACESHIELD UNIT

PRODUCT#: H16XXCRYORG

SIZE: ONE SIZE FITS MOST

COLORS: ●

MATERIALS: POLYCARBONATE

Rugged faceshield with ratchet headgear delivers reliable eye and face protection. Clear shield provides unobstructed visibility while the adjustable headgear ensures a secure fit.

CRYOGENIC KIT WITH WATERPROOF MID-ARM LENGTH GLOVES

PRODUCT#: KITCR001__MA

SIZE: SM-XL

COLORS: ●

MATERIALS: TEFLON™-LAMINATED NYLON

Protect hands and face from extreme cold with this waterproof cryogenic kit. Insulated mid-arm length gloves keep hands dry and warm. Includes ratchet headgear faceshield and Teflon™-laminated nylon apron for full coverage.

CRYOGENIC KIT WITH WATERPROOF ELBOW-LENGTH GLOVES

PRODUCT#: KITCR001__EL

SIZE: SM-XL

COLORS: ●

MATERIALS: TEFLON™-LAMINATED NYLON

Designed for cryogenic environments, these waterproof, elbow-length gloves deliver insulation and protection from cold exposure. Faceshield with ratchet headgear and Teflon™-laminated nylon apron provide body protection. Faceshield bag included for convenient storage.

WATERPROOF MID-ARM LENGTH CRYOGENIC GLOVES

PRODUCT#: G99CRBEP__MA

WATERPROOF ELBOW-LENGTH CRYOGENIC GLOVES

PRODUCT#: G99CRBEP__EL

WATERPROOF SHOULDER LENGTH CRYOGENIC GLOVES

PRODUCT#: G99CRBEP__SH

CRYOGENIC KIT WITH WATER-RESISTANT MID-ARM LENGTH GLOVES

PRODUCT#: KITCR002__MA

SIZE: SM-XL

COLORS: ●

MATERIALS: TEFLON™-LAMINATED NYLON

Withstand extreme cold with this cryogenic kit featuring water-resistant mid-arm gloves with an insulated 3M™ Thinsulate™ liner and a protective Teflon™ nylon apron. Complete with a ratchet headgear faceshield for full coverage and safety in ultra low temp conditions.

CRYOGENIC KIT WITH WATER-RESISTANT ELBOW-LENGTH GLOVES

PRODUCT#: KITCR002__EL

SIZE: SM-XL

COLORS: ●

MATERIALS: TEFLON™-LAMINATED NYLON

Cryogenic glove kit with elbow-length gloves featuring Thinsulate™ liner for insulation. Waterproof membrane adds splash protection. Kit includes faceshield with ratchet headgear and Teflon™-laminated nylon apron for additional coverage and protection.

WATER-RESISTANT WRIST LENGTH CRYOGENIC GLOVES

PRODUCT#: G99CRBER__WR

WATER-RESISTANT MID-ARM LENGTH CRYOGENIC GLOVES

PRODUCT#: G99CRBER__MA

WATER-RESISTANT ELBOW-LENGTH CRYOGENIC GLOVES

PRODUCT#: G99CRBER__EL

CRYOGENIC KIT WITH SAFER GRIP™ MID-ARM LENGTH GLOVES

PRODUCT#: KITCR003__MA

SIZE: SM-XL

COLORS: ●

MATERIALS: TEFLON™-LAMINATED NYLON WITH SILICONE COATED PARA-ARAMID SAFER GRIP™ PALM

Waterproof, cryogenic glove kit with silicone-coated Safer Grip™ palms for superior grip and durability. Insulated with 3M™ Thinsulate™ liner. Includes mid-arm length gloves, faceshield with ratchet headgear, and Teflon™-laminated nylon apron.

CRYOGENIC KIT WITH SAFER GRIP™ ELBOW-LENGTH GLOVES

PRODUCT#: KITCR003__EL

SIZE: SM-XL

COLORS: ●

MATERIALS: TEFLON™-LAMINATED NYLON WITH SILICONE COATED PARA-ARAMID SAFER GRIP™ PALM

Cryogenic glove kit with elbow-length gloves featuring Thinsulate™ liner for insulation and silicone-coated Safer Grip™ palm for enhanced grip. Waterproof membrane adds splash protection. Kit includes faceshield with ratchet headgear and Teflon™-laminated nylon apron for additional coverage.

SAFER GRIP™ MID-ARM LENGTH CRYOGENIC GLOVES
