

The Halo Light™

The Halo Light™ is a 360-degree Personal Active Safety System™ that attaches to any standard hard hat and produces a ring of light around the wearer, enabling him or her to see and be seen in all directions at all times.

Customers

Our customers include 15 of the 30 largest US Contractors, over 150 of the ENR Top 400 Contractors, and 27 of the 50 State DOTs.

Turner

GRANITE

SKANSKA

Oldcastle

ExxonMobil

Balfour Beatty

“The Halo Light is an amazing new tool that has the potential to revolutionize the construction industry in both safety and project delivery.

Mark Gauger, Safety Manager
GLY Construction

“On the projects where we’ve used The Halo Light, our flaggers and road crew teams love it and now refuse to do their jobs without it.

Clark Peterson, VP of EHS
Skanska

“Workers wearing The Halo Light have far better ability to control the quality of their workmanship. The cost of the system pales in comparison to the cost of an injury or even minor re-work.

Don Rogers, Senior VP
RQ Construction

“I truly believe The Halo Light will save lives and will make a positive impact on the roadway profession and that, in the future, any worker exposed to traffic will be utilizing this equipment.

Pacific Northwest Safety Council
Director of Training
